

WEAKNESSES

CONSEQUENCES

-  Aggravation of damages
-  Loss of functionality
-  Maintenance difficult or impossible
-  Early replacement
-  Breach in compartmentalisation and safety
-  Maintenance, repair, replacement costs

ADVANTAGES

Installation welding and mortar

- Frequency of use: 15-year warranty on the door set
- Frequency of use: Up to 1,000,000 open/close cycles (max. level)
- Mechanical resistance: M+7 (maximum normative level)
- Minimum maintenance: low maintenance cost

Screwed installation

- Frequency of use: 10-year warranty on the door set
- Frequency of use: Up to 500,000 open/close cycles
- Minimum maintenance: low maintenance cost
